A Sierra Monitor Company

For Immediate Release

FieldServer Technologies EtherNet/IP Gateway Participates in ODVA PlugFest

May 12, 2005 - FieldServer Technologies participated in the EtherNet/IP Implementor Workshop PlugFest May 9-11, 2006, demonstrating the success of the FieldServer EtherNet/IP Gateway by interfacing with several EtherNet/IP devices.

The FieldServer EtherNet/IP Gateway has been EtherNet/IP conformance tested by ODVA in the past and has been successfully used in many different field applications, enabling users and integrators to interface proprietary protocol devices to their EtherNet/IP network. It is the only conformance tested gateway with a driver library of over 80 protocols.

About FieldServer Technologies

FieldServer Technologies, a wholly owned division of Sierra Monitor Corporation based in California, designs and markets a broad line of devices that enhance communication between various instruments, systems, machines and other devices that utilize non-compatible data protocols. FieldServers combine with an extensive driver library to create the perfect interoperability package. For more information about FieldServer Technologies, please visit its Web site at www.fieldserver.com
