

## For Immediate Release

# FieldServer Technologies Offers Factory Training for Integrators

*March 13, 2007* – FieldServer Technologies offers a two day training class for integrators to help them become more proficient in FieldServer configuration. The two-day class provides the trainee with hands-on instruction about configuration, installation, commissioning, debugging and networking the FieldServer. Upon completion of the class the trainee has the opportunity to become a certified FieldServer System Integrator.

### **About FieldServer Technologies**

FieldServer Technologies, a wholly owned division of Sierra Monitor Corporation based in California, designs and markets a broad line of devices that enhance communication between various instruments, systems, machines and other devices that utilize non-compatible data protocols. The FieldServer combined with the extensive driver library makes the perfect package to achieve interoperability.
