

## For Immediate Release

# Automation Fair 2006

## ***ControlLogix Communications Interface Module and EtherNet/IP Gateways from FieldServer Technologies***

July 19, 2006 – The **SlotServer** ControlLogix Communications Interface Module and **EtherNet/IP gateways** will be featured in the FieldServer Technologies booth 935 at the Automation Fair in October.

**SlotServer** provides the solution demanded by integrators desiring an interface between their PLC and a wide variety of open and proprietary protocols including all major building automation systems, fire alarm panels and other process control and building control systems. Key features include:

- ◆ Standard 1756 format plugs directly into the Allen Bradley ControlLogix rack
- ◆ Simple installation
- ◆ BBMD supported 10BaseT IP connection
- ◆ User-friendly text display, status LED's
- ◆ Trade port for advanced troubleshooting
- ◆ LonMark Certified, BACnet Listed, Metasys Compatible

**FieldServer Gateways** provide a standalone solution to interface any of the 80+ protocol drivers available from FieldServer to Rockwell Automation systems/devices using EtherNet/IP, DH+, DeviceNet, ControlNet, DF1 and more.

The FieldServer **Sentry Hazardous Gas Detection system** will also be featured at the Automation Fair providing interface to a wide range of Rockwell Automation systems.

### **About FieldServer Technologies**

*FieldServer Technologies is a wholly owned division of Sierra Monitor Corporation based in California, designs and markets a broad line of devices that enhance communication between various instruments, systems, machines and other devices that utilize non-compatible data protocols. FieldServers combine with an extensive driver library to create the perfect interoperability package. For more information about FieldServer Technologies, please visit its Web site at [www.fieldserver.com](http://www.fieldserver.com)*
