For Immediate Release

FieldServer Technologies Gateway Links Point Six Wireless Devices to Building Automation Systems

FieldServer gateways support complete line of Point Six Wi-Fi, 900 MHz and 418/433 Sensors

Milpitas, CA 7/29/2011: FieldServer Technologies, a leading developer of building automation interface protocol gateways, announced today the release of the Point Six Wireless Gateway, Point Six Wireless manufactures a variety of unique, high value wireless solutions for commercial and industrial OEMs. They have shipped over 400,000 products incorporating a broad spectrum of radio technologies spanning 418/433/900MHz proprietary protocols as well as Wi-Fi. The FieldServer Technologies Gateway solution enables these devices to easily interface with current open building automation protocols including BACnet, LonWorks, Metasys N2 by JCI, Modbus and SNMP.

Users can now take advantage of the wide variety of Point Six environmental sensors and be assured that the data is compatible with standard Building Automation protocols making it easy to interface with building and campus management systems. The FieldServer gateway supports the complete line of Point Six Wi-Fi, 900MHz and 418/433 MHz sensors spanning from environment sensors to voltage, current and digital sensors. Typical applications include:

- Hospitals, pharmacies and laboratories – temperature and humidity monitoring
- Building automation – ambient condition monitoring
- Restaurants – freezer, cooler and refrigeration temperature monitoring
- Data centers – temperature, leak detection and power monitoring

About FieldServer Technologies

FieldServer Technologies, a wholly owned division of Sierra Monitor Corporation based in California, designs and markets a broad line of devices that enhance communication between various instruments, systems, machines and other devices that utilize non-compatible data protocols. The FieldServer combined with the extensive driver library makes the perfect package to achieve interoperability. For more information about FieldServer Technologies, please visit its Web site at www.fieldserver.com.

About Point Six Wireless

Point Six Wireless, LLC, founded in 1996, provides Fortune 500 OEMs both IR and RF end-to-end solutions spanning Sensor Integration, Packaging, Connectivity and Field Support. Typical deployments include Healthcare, Foodservice, Data Centers, Trucking and Retail remote monitoring sensors. For more information about Point Six Wireless visit their website: www.pointsix.com.
